Developments(Features)

E-commerce Website

- Developed a user-friendly interface using HTML, CSS, and React to ensure seamless user experience and easy navigation.
- Built dynamic product pages displaying real-time details, enabling users to explore features, pricing, and availability for a personalized shopping experience.
- Designed a functional cart page using Redux Toolkit, supporting item addition, removal, quantity updates, and price calculation in real-time..
- Integrated a responsive shopping cart with real-time updates, providing users with a smooth and intuitive purchase flow.

Ezitech-Institute

- Developed a responsive single-page application for an internship-providing institute using React, ensuring seamless user experience.
- Integrated dynamic content rendering with React components, enhancing interactivity and usability for potential interns and applicants.
- Designed an intuitive layout using Tailwind CSS, ensuring accessibility and a clean, professional appearance.
- Implemented routing for smooth navigation between sections, maintaining a consistent, single-page experience throughout the site.

Feelo - Food Website

- Designed and developed a sleek and organized food website using HTML, CSS, and Bootstrap to enhance user engagement and satisfaction.
- Created an intuitive menu display with categories, allowing users to easily navigate through various food options and selections.
- Developed detailed sections for recipes and ingredients, providing comprehensive information for users seeking to prepare meals.
- Integrated user testimonials and reviews to enhance the website's credibility and encourage greater user interaction and feedback.
